

MEDIC QI INTERVENTION TEMPLATE

DUE DATE: July 31, 2017

MEDIC Site Name _____

QI Measure: _____

Site QI Team Members (job families / roles): _____

- 1) **What intervention/change idea have you selected?** *What key driver is this idea connected to?*
- 2) **What is the rationale for this intervention?** *Why do you believe this intervention will work in your system?*
- 3) **How will you know if your intervention is successful?** *How will you know if other factors could also have contributed to a measured improvement?*
- 4) **What do you anticipate will be the enablers and barriers to this intervention (List 2-3 of each)?** *These may relate to your site's specific clinical setting/context.*
- 5) **Describe the intervention in detail including personnel involved.** *Could consider a diagram to illustrate who will do what, when and how from current to future state as a result of your change/intervention.*

MEDIC QI INTERVENTION TEMPLATE

6) Describe any necessary infrastructure required for this intervention. Examples: *Requires certain electronic health record or radiology order set development, specific personnel, training materials for personnel, presence of a specific ED system such as observation center, and associated costs either direct or indirect.*

7) Describe the personnel who will be responsible for the intervention and their roles. *Could consider a diagram to illustrate who will do what, when and how from current to future state as a result of your change/intervention.*

8) Describe how you will test the intervention before implementation.

9) How do you plan on ensuring and maintaining adherence to your intervention?

Notes:
